SECTION A – INSTRUCTIONS

1. Resources

- a. **The *AOA Basic Document for Postdoctoral Training Programs***
All postdoctoral training programs approved by the American Osteopathic Association (AOA) are governed by this document. It contains requirements for program eligibility, faculty and administrative staff, administration of the educational program, clinical and educational resources, curriculum and instruction, evaluation of residents and evaluation of the program and recruitment of residents. It is available on the Osteopathic.org website:
<http://www.osteopathic.org/inside-aoa/accreditation/postdoctoral-training-approval/postdoctoral-training-standards/Documents/aoa-basic-document-for-postdoctoral-training.pdf>
- b. **Common Requirements** for all training institutions have been summarized into a separate document for easier reference, available at:
<http://www.osteopathic.org/inside-aoa/accreditation/postdoctoral-training-approval/postdoctoral-training-standards/Documents/summary-of-common-institutional-and-program-requirements.pdf>
- c. The Specialty/ Subspecialty/ Fellowship **Basic Standards** contain specialty specific training requirements. **AOA training programs cannot be approved in specialties for which there are no AOA approved standards.**
Specialty Colleges draft training standards which are reviewed by the AOA Council on Postdoctoral Training (COPT) and subsequently approved by the AOA Board of Trustees. These standards are posted to the Osteopathic.org website
<http://www.osteopathic.org/inside-aoa/accreditation/postdoctoral-training-approval/postdoctoral-training-standards/Pages/default.aspx>

You may want to contact the specialty college on questions about specific training requirements.
- d. **Osteopathic Postdoctoral Training Institutions (OPTIs)/Academic Sponsor**
OPTIs fill a fundamental role in osteopathic graduate medical education and serve as academic sponsors. AOA-approved OGME programs shall function under the authority of an AOA-accredited sponsoring OPTI. For a complete list of OPTI partners please use the following link:
<http://www.osteopathic.org/inside-aoa/Education/opti-clearinghouse/Documents/opti-partner-list.pdf>

2. Submitting the Application

The application should include a brief cover letter and a table of contents with tabs or separator pages. Required documents should be organized in the same order as they appear in Section C of this document. The application may be submitted electronically or by regular mail directly to AOA with the OPTI officer signature OR directly from the OPTI.

- a) To submit an application electronically:

Electronic applications must be bookmarked. Create a pdf from your document file(s) and add bookmarks before submitting.

You can submit an electronic application through your OPTI via FileWorks. Please contact your OPTI Officer for details.

- b) To submit a paper application:

Please do not use binders or staples. Submit one original and one copy of Section B-C of the application with all required documents to:

AOA Division of Postdoctoral Training
142 East Ontario Street
Chicago, IL 60611

3. **Turn-around Time: From Application to Final Approval**

We recommend that you plan on the process taking at least four to six months. Specialties that require a pre-approval inspection may take six to nine months. Pre-approval inspections can be requested by any specialty college, and are routinely conducted for: Internships, Anesthesiology, Dermatology, Emergency Medicine, Obstetrics/Gynecology, Orthopedic Surgery, and Surgery. This can add two to three months to the application process, depending on inspector availability. Incomplete applications are one primary reason for delays in approval recommendations. Applicants are notified by the AOA and/or by the specialty college when additional documents are needed, and you are encouraged to respond to those in a timely manner. For a detailed explanation of the approval process please see the work-flow diagram in Section D of this document.

Please note that after the program is approved by the PTRC you will be invoiced for a one-time new program fee. The fee is \$3200 for a new residency and \$2400 for a new fellowship.

4. **The AOA Intern/ Resident Registration Program (AOA Match)**

The AOA Match closes in January of each year. To increase the likelihood that the proposed program will be able to participate in the AOA Match for the academic year in which you intend the program to begin, we strongly recommend submitting your application by July of the year prior. This is because in order to participate, the proposed program will need approval by the AOA Program and Trainee Review Council (PTRC) no later than the November of the year preceding the intended start date.
